ATTACK BRITISH

British in Southern Arabia
Declared to Be in Dan-
gerous Position.

Berlin, Germany, Jan. 27.—(By wire-
less to Saville, L. I.)—The Cologne
Volks Zeitung publishes a dispatch
from Cairo stating that the British in
southern Arabia are in a dangerous
position as a result of fierce attacks
by Arabs and Turks.
It is stated the British casualties
up to December amounted to 15,000
killed and 20,000 wounded.
The number of British troops now
at Aden is given at 20,000. Quoting
from the Volks Zeitung, the Overseas
News agency says:
"A wounded British major declared
that at the beginning of the war the
British were in possession of 250,000
square kilometers in southern and
southwestern Arabia, all of which has
been lost. All the Arab chiefs joined
the Turks and are now using success-
fully against the British the arms sup-
plied by them."

Got Rid of My Corns
With Magic "Gets-It"

Simplest Corn Cure in the World—No
Pain, No Fuss, New, Sure Way.

When corns make you almost "die
with your boots on" when you've
soaked them and picked them and
sliced them, when corn-awelling salves,
and tapes, bandages and plasters that
make corns pop-eyed have only made
your corns grow faster, just hold your
heart a moment and figure this: Put
two drops of "Gets-It" on the corn. It
dries at once. You can put your shoe
and stocking on right over it. The corn
is doomed. It makes the corn come
off clear and clean. It's the new, sure
way. Nothing to stick or press on the
corn. You can wear smaller shoes.
You'll be a joy-walker. No pain, no
trouble. Accept no substitutes.

Cured His RUPTURE

I was badly ruptured while lifting a trunk
several years ago. Doctors said my only
hope of cure was an operation. Trunks did
me no good. Finally I got hold of something
that quickly and completely cured me. Years
have passed and the rupture has never re-
turned, although I am doing hard work as a
carpenter. There was no operation, no
trunk, no trouble. I have nothing to tell
but will give full information about how
you may find a complete cure without oper-
ation. If you write to me, Eugene St. Pater,
Carpenter, 302 E. Marquette Avenue, Minne-
apolis, N. D., I will send you a notice and
show it to any other who is ruptured. You
may save a life or at least stop the misery of
rupture and the worry and danger of an
operation.—Advertisement.

The Treatment of
Influenza or La Grippe

It is quite refreshing these days to read of
a clearly defined treatment for Influenza or
La Grippe. In an article in the "Lancet-
Clinic," Dr. James Bell, of New York City,
says he is convinced that too much medica-
tion in both unnecessary and injurious.

When called to a case of la grippe, the
patient is usually seen when the fever is
present, as the chill which occasionally
ushers in the disease, has practically passed
away. Dr. Bell then orders that the bowels
be opened freely with salts. "Aloides" or
severe headache, pain and general soreness,
one anti-kamper tablet every three hours
is quickly followed by complete relief.
Ask for A-K Tablets. They are also unex-
celled for headache, neuritis and all pains.

GERMANS REPORT
HEAVY BATTLES

Fighting in France and
Flanders Proving of
Severe Character.

Berlin, Germany, Jan. 27.—Reports
from France and Flanders say a favor-
able turn in the weather has been fol-
lowed by active fighting on the entire
western front. The heaviest fighting
has been near Nieuport, north of Ypres,
and in the Argonne.
German patrolling parties brought
word that German artillery had done
allies near Nieuport. The British ar-
tillery, it was said, was hardly less ac-
tive than that of the Germans. On one
section of the front the British fired
1700 shrapnel shells, 700 high explosive
shells and about the same number of
bombs within 24 hours.
In another section near Neville, the
Germans announced they had captured
three lines of French trenches and had
held them against fierce counter at-
tacks.
The Germans claim good progress
south of Arras through work of sappers
and miners.

Berlin, Germany, Jan. 27.—When
the German air squadron raided Dover,
England, Monday, one of the bombs
fell on a deposit of mines and they
exploded, killing 39 persons, including
one officer and 24 privates, according
to the Hamburger Fremdenblatt.

According to the Fremdenblatt's ac-
count, the explosion did not take place
until 15 minutes after the bomb had
landed, so that the soldiers at first
believed the missile was harmless.
Railroad cars filled with provisions
and several cottages were reported to
have been destroyed.

One transport anchored in the har-
bor was damaged by the explosion and
sank immediately.

"Let me up in a corner and shoot
me," he said. "Let officer Duffy shoot
me with the same pistol I tried to kill
him with. When I shot at Duffy I
tried my best to kill him. Now let
Duffy shoot at me three times and it
can kill me all right."

Verita is held on a charge of assault
with intent to murder.

Curling Iron Kills Hair;
New Method Improves It

Many a woman loses the silky, fluffy and
brilliant appearance of her hair through
habitual use of the hot curling iron.
Certainly it can do the hair no good to
dry up its natural life, making it brittle and
dead. And there's no excuse for continuing the
use of that destructive instrument, now
that we know what can be accomplished by
applying plain liquid silimene.

The use of this harmless product really
preserves the life, lustre and beauty of the
hair, and the curly and wavy effect is
perfectly natural looking and most capiti-
ating. If you've never tried it, all you need
procure a few ounces from your druggist
and you'll be able to maintain your hair from
root to tip, putting it on with a clean tooth
brush. The liquid silimene is neither
greasy nor sticky, but quite pleasant to
use.—Advertisement.

SHOES TO POOR

Government Has Ten Shoe
Stores in City; Com-
mission Established.

Ten stores of the Mexican government,
for the sale of shoes to the poor in
Mexico City, have been established at
the capital, it is reported to the local
Mexican consulate.

Agrarian Commission Chosen.
Reports from Mexico City to the local
Mexican consulate also announce the
establishment by first chief Carranza of
a national agrarian commission, to co-
operate with and unify the action of
the state and community agrarian com-
missions. In the report Carranza said
of the national lands throughout the whole
of Mexico.

The makeup of the national agrarian
commission is to include, it was reported
from the capital, the secretary of the
interior, a representative of the secretary
of the department of public works, one
from the office of the attorney general
of the republic, one from the department
of finance, the chief of the national
land office, the chief of the water and
forest boards, and the attorney for the
department of labor.

Panama Reports to Washington.
Washington, D. C., Jan. 27.—Gen.
Funston reported to the war depart-
ment today the drowning of four and
the capture of two American soldiers
near Brownsville, Texas, yesterday.

His dispatch contained a report by Maj.
Anderson, commander of the 15th cav-
alry, and says:

"I have directed Col. Plummer, 25th
infantry, to send one of his field of-
ficers to investigate. Mr. Garza, Mexi-
can consul, has been informed of the
contents of Maj. Anderson's telegram
and of the arrest of the three officers
concerned. He has gone to Matamoros
to inform the commander general there
and to ask that immediate search be
made for privates Wheeler and Federson.
The Mexicans on the other side
were not in uniform."

The state department has not yet
taken up the subject with the defacto
government of Mexico, as the war de-
partment's information regarding the
incident near Brownsville was turned
over to the state department for its
information and for the purpose of lan-
guage took it under consideration.

MILITARY TRAIN TAKES THREE
AMERICANS TO CHIHUAHUA

A special military train from Minaca,
western Chihuahua, arrived in Chihuahua
city Wednesday bringing in three
Americans from the Yopoy and Le
Cienega mining properties, with the
report that everything was quiet at
Minaca and that the entire Guerrero
district is garri-soned by Constitution-
alist soldiers.

Protection has been asked of the
Carranza government for the plants of
the Le Cienega and Yopoy properties,
following the accidental burning of the
power house and outlying buildings at
Yopoy early in the week.

Dr. Dupree and superintendent Hall,
of the Yopoy plants and granite
superintendent Cardwell, of the Le
Cienega property, arrived in Chihuahua
city on the military train, and were
met by the commander general there,
that a German storekeeper by the name
of Helms had remained at Minaca,
disclaiming any fear of outbreaks in the
section, and stating to his store, as
the only foreigner in that center.

GARCIA, BANDIT LEADER
IN SONORA, SURRENDERS

Douglas, Ariz., Jan. 27.—It is an-
nounced at Agua Prieta, Son., opposite
here, that Alberto Garcia, bandit leader
in the Sabahua district, has sur-
rendered to Gen. Rafael Estrada, com-
mander of Carranza cavalry in the
Chumipa district, who had surrounded
Garcia's band.

Announcement that the state depart-
ment at Washington had granted the
request of the Carranza authorities for
a mission to ship an airplane through
American territory from Agua Prieta,
to Naco, Sonora, for resupplyment to the
Yaqui river valley, was received today
by Lieut. Leveque, Mexican consul here,
from Eliseo Arredondo, Mexican am-
bassador-designate at Washington.

The machine was being accepted
over the almost inaccessible Bada-
cate mountains where the Yaqui in-
dians are reported to be gathering.

MEXICAN HERBS SAID TO BE
SURE CURE FOR TYPHUS FEVER

Mexican consulate advises in El Paso
from Mexico City Wednesday afternoon
report of the rediscovery of a cure for the
dreaded typhus fever. Dr. Marquez San
Juan, of the faculty of the University
of Mexico, has declared through the
Carranza government, it is stated, that
three herbs supply the base for a
"breu" which, when administered, will
cure typhus. The herbs mentioned
are reported as *hottizizochilli*, *tiat-*
lanacua, and *tianguale*.

These herbs were used in the 17th
century by the Indians to cure the
"burning fever." Dr. San Juan de-
clares that he has traced the origin of
these three herbs, found in different
sections of Mexico, with success in
curing typhus fever cases, and he an-
nounces that he believes that the old
Indian "burning fever" and typhus are
one and the same disease.

tured, of whom six were executed at

has captured a 600 round shell and am-

000 at Maquira.

CLAIM DEFEAT
FOR ARGUMENTO

Juarez Hears of Battle at
Nazos; Parral Reported
Attacked.

Reports to the mayor of Juarez, Man-
uel M. Prieto, Wednesday night, to the
effect that Constitutional troops had
not and defeated Arguemedo's forces at
Nazos, Coahuila, based on advice from
the military headquarters at Chihuahua
city, were supplemented by rumors
Thursday morning in the garrison in
Juarez, stating that a detachment from
the Arguemedo forces had invaded the
Parral district in southern Chihuahua.

Official reports from Chihuahua city
declared that Carrancista Gen. Fortunato
Maycott, commanding a division of Tre-
vino's forces, had defeated the main
body of Arguemedo's forces at Nazos,
Coahuila.

No figures on killed or
wounded were reported.

Report Attack on Parral

Unconfirmed accounts of the Parral
assault by a section of Arguemedo's
column said that a detachment of Argu-
emedo's troops had included forces under
the Arrieto brothers, working northward
from Durango city, and had made an
attack on the Alvarado properties in
Parral, after having invested Inde in
their march into Chihuahua state from
the south.

No Union With Villa

On the reports that Arguemedo was
seeking to make a junction with Villa,
it is authoritatively declared in Juarez
that the Arguemedo allied forces were
being controlled by interests which would
not consider Villa in any capacity at
this time, and that Villa was lying
around in the western Chihuahua coun-
try "waiting for something to turn up,"
but without affiliations of any sort.

TWO CASES OF SMALLPOX
REPORTED IN MORMON COLONIES

Two cases of smallpox are reported in
the settlements of Colonia Dublan
and Colonia Juarez, one each among
the Mexican soldiers quartered there.

Passengers arriving Thursday after-
noon from the Mormon colonies nar-
rated the fact that both sides men in
the camps had been cut out from the
rest by the military officials on the
ground. One of the smallpox victims
was a soldier under Manuel Quiroga,
who surrendered to Carranza forces,
and marched up to Juarez.

No typhus is reported among the
Mexican troops in the colonies, the
reports state.

CARRANZA MAY ADAPT
FORCED MILITARY SERVICE

Mexico City, Jan. 27.—Gen. Carranza

with the colors and a period of years
in reserve.

Dispatches from Queretaro say the
government soon will issue new paper
money, to be secured by gold and
silver deposits in the national

INTERVENTION
IS ONLY HOPE

Mexico City Man Says Ev-
eryone in Mexico Wants
Intervention

"If there is a single man in Mexico
City who does not want intervention by
the United States I have yet to see and
talk with him," said P. L. Echols, a
business man of the Mexican capital and
a visitor Thursday at the Rotary club
luncheon held in the ballroom of the
Paseo del Norte hotel. "Not only is in-
tervention necessary, but there will be no
settled conditions in the republic to the
south of us until the United States un-
dertakes the problem of restoring peace
and order in that country."

"I have lived in Mexico for 10 years
and my observations are the results of
those 10 years. We have faced a peculiar
problem in the United States for a long
while and the solution of that problem
is in Mexico. The problem is that we
have factories standing idle and thou-
sands of men unemployed. In Mexico
and in the South American republics we
have a territory that is commercially un-
exploited. It is our territory, geographi-
cally and by virtue of our relationship
with the southern republics."

Relief of Congestion.
"The movement, begun 10 years ago,
to relieve the congestion of population
in the American cities has not been
successful, nor has there been any
change in the problem of the unemployed.
Relief would come with intervention in
Mexico and I advocate and hope very
earnestly that the United States will
adopt a firm policy in this respect."

The remarks made by Mr. Echols were
received with applause by the Rotarians.
Other speakers upon the program were:
F. L. Marx of Louisville, Ky.; Sam G.
Levy, Los Angeles; W. W. Pace,
Tulsa, Okla.; J. N. Robinson, Globe,
Ariz.; T. M. Quebedeaux, Gallup, N. M.;
R. H. Carter, Santa Fe, N. M.; E. N.
Rogers, Houston, Tex., and Barry Ha-
gdon, El Paso, all of whom were guests.

Segall Trial Continues.
The trial of J. R. Segall, which began
at the previous Rotary luncheon, that
member of the club being accused with
selling a gold brick to the First National
bank, was resumed at the noon luncheon.
The absence of rabbi Martin Zienkoff,
the appointed judge, led to recommendations
for a new judge. C. W. Croom
was accepted on the grounds that the
defense desired a man for judge un-
acquainted with the law. No sooner
was he found worthy by the attorneys
for the defense than he was objected to
by the same attorneys on the ground
that he sat at a table with bankers and
was apt to show prejudice. For that
reason, president Rowlands said he was
acceptable.

Clairborne Adams was not acceptable
because he was running for the direc-
torate of the chamber of commerce. Robt.
Krauker was rejected because he had
shown violent opposition to the defend-
ant; and A. J. Foster was temporarily ac-
cepted, but rejected when he acknowl-
edged having bought satisfactory glasses

from the defendant. Then by general
consent C. W. Croom was chosen as the
trial judge, and once in the chair he
became arbitrary and wouldn't stand for
any more exceptions to himself or any-
thing else. Segall demanded a jury
of his peers and the judge said: "That's
easy."

More Jurors Examined.
The selection of jurors began. Leo
C. Hartford, after much quizzing, was
accepted if he would agree to bury all
prejudice; H. B. Fletcher, because he
said he could honestly pass upon the
merits of a clear proposition and would
wash out his prejudices; Joe Wright, be-
cause he had bought unsatisfactory
glasses from Segall, and because he was

a "chilly proposition"; W. E. Hurstall,
being a brewer, was accepted by the
defense, but rejected by the prosecution
on the grounds that at times he gets
drunk and wears glasses. Later he was
accepted when it was shown that froth
was not an objection if not laid on too
heavy.

The attorneys for the prosecution are
E. M. Kayser, R. R. Orndorff, Robt.
Krauker, Roger F. Stewart and A. J.
Strayer; the attorneys for the defendant,
G. A. Martin, E. C. Davis, H. R. Mc-
Clintock, W. R. Welch and E. H. Yale.
Because of the lateness of the hour
and because the defendant objected to
having his "finen washed in public," the
case was continued to the next luncheon.
